COMING IN NOVEMBER

PENTHOUSE

Ever wish you could be one of those guys you've always heard about but never really believed in? You know, the ones who can have multiple orgasms without having to take a break in-between? Penthouse writer and ace sex-detective Dr. Judy Kuriansky has tracked down the secret of a 3 000 year old Chinese technique. **It's all about timing**, and you can get your black belt in sexual Kung Fu in next month's issue.

Like to see a little more of Perlé van Schalkwyk, the girl with the **sexiest, slinkiest body** in the southern hemisphere? You can see a lot more of her in British photographer Viv Thomas' Pet of the year pictorial, shot at Vic Falls in September.

Not looking quite so sexy these days is Marilyn Monroe. This is the year of **Marilyn's 70th birthday**. Unfortunately, the blonde bombshell isn't here to celebrate it with us (Michael Jackson says she's living in Paraguay with Elvis), but we've got an exclusive 70th birthday photo for you. Can't tell you how we got it, but if you want to see how Marilyn looks at 70, look in next month's issue.

Another old friend's had a facelift: the **Toyota Corolla range**. 1996 Motoring Journalist of the Year, Charlene Clarke, finds out what's different in the new model.

You can also catch our new, improved health section - It's a maintenance **manual for male-body owners**. Read about aphrodisiacs that work, cut your risk of heart disease, and find out how to turn your gym strength into **real strength** you can use.

When Bafana Bafana won the African Cup of Nations, **we all cheered like hell**, and then shifted our attention to the Olympics and the rugby. But our soccer team hasn't reached it's pinnacle yet. They're on their way to the **World Cup in France** in 1998. But first they

have to beat Zaire on 9 November and Zambia in January. Can they do it? 

MAIL ORDER COUPON:

If you have a modem, but are not yet connected to Beltel, complete and mail this coupon to us, together with R15.00 (to cover packaging and postage), and we will send you free PCBEL software and the necessary Beltel application forms.
