Contact Francois or Johan (012) 997-1023 O/H**

Grand Opening

Grand opening, and that is no underestimate, Francois and Cherise certainly know their stuff when it comes to being grand, their opening will put many others to total shame, Jeremy Mansfield had the large crowd in hysterics and the lovely Gigi (Penthouse Pet of the year) and Anastasia (Miss Harley Davidson '96) entertained the crowd with class and style, the other models showed off some of the exquisite leathers and biking gear that Menlyn U.S.A. Imports also sell, not to mention all the brilliant cruisers through to superbikes, Francois has a ever-changing range of Motorcycles, if there is something you want and he doesn't have it on his showroom floor, he will make a plan to get you one. JD Blondes prepared the brilliant spread of food, Rolling Rock beers were available, Jack Daniels had drinks available, High Tek, Nature by Design and the Eunice Beauty Sanctuary were also amongst the sponsors

Interestingly enough Francois has another company right next door where he sells anything from American Chevy vans to the latest super duper Jaguars.

So dear reader put your favorite magazine (Redline of course!) down, go and see Francois or Johan for that dream machine today. *Lee*

Francoise and his wife

Jeremy Mansfield playing the fool as usual
